"Web systems that matter"

SKILLS

TypeScript

Node.js

Vue.js

React

Webpack

Python

Scrapy

Data Mining

GraphQL

MySQL

ES6

API

AWS

SCSS

SPA

PWA

OBJECTIVE

To work with the Jamstack on the front-end and leverage my extensive back-end experience to round out as a full-stack dev

EXPERIENCE

Full-stack Developer, Prime Site, Ohio USA

2020

Using the Jamstack to create Progressive SPAs. *Platform: TypeScript, React, GraphQL, Rust*

Back-end Developer, Scrapinghub, Chiapas Mexico

2011→2019

Started off writing spiders. Moved to creating internal interfaces exposing collected data with highly-available micro-services APIs with all supporting infrastructure including virtual hardware provisioning with: logging, statistics and monitoring as well as a user interface to create the API requests. *Platform: Python 3, Scrapy, Flask, Docker, Redis, Vue.js, Angular.js*

Systems Developer, Freelance, Central Europe 2001→2010

Client / server systems for the web. *Platform: Python 2.7, PHP5, MySql, JavaScript, Ajax, Apache, Postgres*

Lead Developer, Full Moon Interactive, Cali USA 1999→2000

Built client-rich websites with fluid user experiences using state-of-the-art hardware. *Platform: Java 1.2, Java Servlets, JSP, ASP, SQL, XML, WebLogic on an NT4 server*

EXPERIENCE

continued

Web Systems Programmer, Toshiba, Cali USA 1998→1999

Developed the first client-based PC configuration utility on the web. Instead of returning to the server, the database was recreated on the client providing lightning quick data calculation for product pricing. *Platform: Java, JavaScript, ASP, SQL, HTML on an NT server*

Lead Web Programmer, Mozes Cleveland, Ohio USA

1997→1998

High Profile Internet systems developer integrating the new Flash technology with ASP. *Platform: Microsoft IIS, ASP, SQL, Java, HTML on an NT server*

Webmaster, Books.com, Ohio USA

1996→1997

Ran the Internet systems department of the leading online books retailer. Administrator for: LAN, mail, SQL, DNS, Web, merchant services, search services. *Platform: Microsoft IIS, ASP, SQL, JavaScript, and extended HTML on an NT server*

Systems Developer, Ernst & Young, Ohio USA

1996

EDUCATION

Constructed web-based trend analysis and work-flow systems that helped define the Support Leader position for The Ernie Internet Business Consulting Team. *Platform: Netscape, Access, Lotus Notes on Windows 95*
